

SCOOBY-DOO!

SOCK SNOW-DOG

Materials

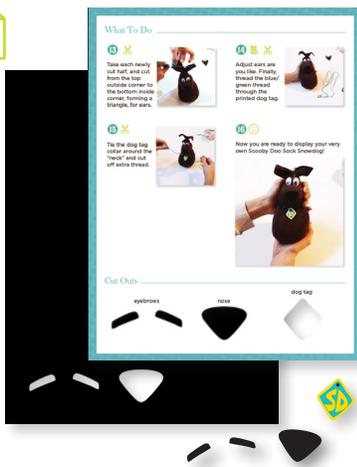

- Scissors  • 1x Brown Sock 
- Craft Glue  • 1x Black Felt Sheet 
- Wide Tape Roll  • 2x Googly Eyes 
- Black Marker  • Thread: Brown & Blue/Green 
- Rice 

What To Do

Print sheet with dog tag and face stencils. Cut out the dog tag, and cut out pieces of black felt using the stencils. Put all pieces aside for now.

Cut off half of the leg of the sock.

Take the wide tape ring and pull the cuff of the sock through it.

Stretch it over the tape ring to make it more comfortable to pour the rice into.

What To Do

5

Pour the rice into the sock. The more rice you add, the bumpier your snowdog will be.

7

Add more rice as needed to form the head. Keep the heel pointed forward to form the "muzzle".

9

Using brown thread again, tie approx. 1" below the previous tie, forming a small "head" above the "muzzle". Cut off any extra thread.

11

Finish off the face by drawing three dots on both "cheeks".

6

Shape the snowdog's body a bit. Using brown thread, carefully tie below the heel of the sock. Cut off any extra thread.

8

Using brown thread, tie at the base of the remaining sock leg. Secure tightly and cut off any extra thread.

10

Glue googly eyes and eyebrows onto the small "head", and the nose and mouth onto the "muzzle".

12

Carefully lay down your snowdog and cut the remaining leg of the sock in half.

What To Do

13 ✂

Take each newly cut half, and cut from the top outside corner to the bottom inside corner, forming a triangle, for ears.

14 🧵 ✂

Adjust ears are you like. Finally, thread the blue/green thread through the printed dog tag.

15 ✂

Tie the dog tag collar around the "neck" and cut off extra thread.

16 😊

Now you are ready to display your very own Scooby Doo Sock Snowdog!
